Ex. 4 - CBI

1/17/2012 12:00:29 PM

To: Richard Rupert/R3/USEPA/US
CC:
Subject: Dimock Residential Site Data and EPA Regional FTP Site

We are now transferring the Dimock Data to the New Designated Secured Shared Network Folder of

Ex. 6 - Personal Privacy

This same Data is also being loaded onto the EPA Regional FTP Web Site. This FTP Web Site can be accessed by any designated EPA Staff and Contract personnel using any Computer on the EPA Network or Outside the Office using an Internet Service connection. Your Computer must have an FTP Site Application program installed on it. Then within this FTP Site Application you insert the FTP Host Site Name, Username, and Password.

FTP SITE USE AND ACCESS

Below is the information for accessing the Region 3 FTP site. All current Dimock Data from above Network Folder has already been copied to this designated FTP Site location within a folder labeled Dimock. If you have never accessed the FTP site, the easiest way to do it is to use an FTP interface program. The best is FileZilla which can be downloaded for free here:

Filezilla download

Once you've downloaded the program, use the following information to connect to the EPA Regional FTP site.

FTP Site (Host): **Ex. 6 - Personal Privacy**

User Name:

Password: **Ex. 6 - Personal Privacy**

No Port Entry Required; just select 'Quickconnect'.

The Left Pane will be a listing of your Computer Drives, Folders & Files. The Right Pane will be the FTP Site Drive, Folders & Files.
